FOR IMMEDIATE RELEASE

Wayland Pediatrician to Join Tri-County Family Medicine As Part of New Vision Transition Plan

HORNELL, NY (January 22, 2015) – St. James Mercy Hospital pediatrician Dr. Gayle A. Mosher has announced she will join Tri-County Family Medicine, a non-for-profit family practice group with an office located in Wayland, effective April 1, 2015. She will remain caring for patients at her current office located at 200 North Main Street.

Tri-County Family Medicine in collaboration with St. James Mercy Hospital is in the process of developing a plan for Tri-County to obtain applicable approvals to acquire the medical office building located at 200 North Main Street, in Wayland. Later this spring, joining Dr. Mosher at her current office located at 200 Main Street in Wayland, will be the Wayland office providers of Tri-County Family Medicine Joseph DePra, M.D. and Anita Eck, P.A.

“We are pleased to make this joint announcement regarding Dr. Mosher’s transition to Tri-County Medicine,” said Jennifer Sullivan, president and CEO, St. James Mercy Hospital. “As part of the New Vision for healthcare in Hornell, we are working to ensure a continuity of care for patients in Hornell and the surrounding communities. We are happy that Dr. Mosher will continue to maintain her practice in Wayland, with no disruption in the care of the patients she serves, and we thank her for her many years of service to SJMH.”

“We are delighted to add Dr. Mosher and her pediatrics practice to our Wayland Center,” said Joyce Wheaton, Tri-County Family Medicine Program Administrator. “What is especially heartening is that pediatrics patients will be able to continue to receive care by Dr. Mosher and will not need to transfer their care elsewhere. We are working collaboratively with St. James Mercy Hospital to facilitate a smooth transition for patients and referring providers.”

Dr. Mosher has been providing quality, compassionate care to children and families in Wayland since 1993, when she joined the SJMH Medical Staff.

For more than a year, St. James Mercy Hospital has been developing and implementing the New Vision for healthcare in Hornell, the goal of which is to develop and implement a sustainable, financially viable plan for the continued delivery of healthcare services in Hornell and the surrounding communities.
